Tel: +62 8159182757 | Email: Alyssachalondra@gmail.com | LinkedIn: linkedin.com/in/alyssachalondra

SUMMARY

Industrial Engineering student with interests in process improvement, data analysis, and operational system automation. Experienced in developing inventory consolidation and monitoring systems using Excel VBA and Power Query during an internship at PT SMART Tbk. Skilled in problem solving, cross-functional collaboration, and translating operational issues into data-driven improvement solutions.

EDUCATION

Sebelas Maret University

Aug 2023 – 2027 (Expected)

Bachelor of Industrial Engineering Faculty of Engineering

Cumulative GPA: 3.50

Relevant Coursework: Supply Chain Management, Production Planning & Inventory Control, Data Analytics

WORK EXPERIENCES

Assistant Laboratory of System Engineering & Industrial Policy Analysis

Sept 2025 – Present

Academic laboratory assistant unit within the Industrial Engineering Department at Sebelas Maret University, supporting laboratory learning and industrial system analysis activities.

- Assisted laboratory sessions related to system modeling, programming, and industrial data analysis.
- Supported students in data processing and machine learning applications for industrial cases.
- Contributed to laboratory documentation and improvement of automation and decision-support learning materials.

PT SMART Tbk – Filling Plant Intern

Jan 2026 – Feb 2026

- Analyzed inefficiencies in multi-shift packaging inventory recording processes through operational observation and data analysis.
- Developed an inventory data consolidation and monitoring system using Power Query and Excel VBA to automate multi-file integration and stock processing.
- Built an automated stock continuity mechanism for inter-shift inventory tracking, reducing manual reconciliation time by approximately 96%.
- Supported real-time inventory discrepancy detection and dashboard-based monitoring to improve stock recording accuracy.

Freelance Technical Designer

Feb 2026 – Present

- Designed site layouts and facility visualizations for a commercial poultry project using AutoCAD, SketchUp, and Lumion.
- Supported technical planning and documentation for poultry infrastructure development and operational layout configuration.

RESEARCH / PUBLICATIONS

Perancangan Sistem Konsolidasi Data Inventory Packaging Berbasis Power Query dan VBA untuk Akurasi Stok (Under submission)

May 2026

- Developed a low-cost inventory control system using Power Query and Excel VBA.
- Reduced reconciliation time by approximately 96% through process automation.

ORGANIZATIONAL AND VOLUNTARY ACTIVITIES

Peduly Surakarta, *Creative Staff*

Apr 2025- June 2025

A social movement platform connecting donors and beneficiaries, promoting social awareness through digital media.

- Created engaging content for Instagram and TikTok related to volunteerism and social issues.
- Designed visual assets for feed posts, stories, and short videos.
- Achievement:** Successfully increased account engagement and followers through consistent and creative content strategy.

INSTING FT UNS 2025, *Head of Media Division*

Apr 2025 – June 2025

- Led media coordination and publication planning for a faculty-level engineering competition involving multiple departments.
- Managed branding, visual communication, and publication workflows to support event engagement and awareness.

ADDITIONAL INFORMATION

Technical Skills: Excel VBA, Power Query, SQL (Basic), Python (Basic), Data Analysis, Dashboard Development, Inventory Monitoring, Statistical Analysis

Languages: Bahasa Indonesia (Native), English (Advanced – TOEIC 785)

Certifications:

- Databases and SQL for Data Science with Python – IBM
- Python for Data Science, AI & Development – IBM
- TOEIC Listening & Reading – ETS (Score: 785, Issued April 2026)

Achievements:

- Semifinalist – Makara Business Plan Competition 2025 Organized by HIPMI PT UI (Issued May 2025)
