Portfolio: uns.id/AlyssaPortfolio

Third-year Industrial Engineering student at Universitas Sebelas Maret (GPA 3.50/4.00) with a strong interest in system optimization, business analytics, and supply chain operations. Experienced in designing inventory automation systems, improving operational processes, and developing analytical dashboards to support data-driven decision making. Skilled in Excel VBA, Power Query, SQL, Python, Power BI, and Tableau, with proven ability to identify process inefficiencies and deliver practical improvement solutions.

Education

Sebelas Maret University, Indonesia

2023 – 2027 (Expected)

Bachelor program of Industrial Engineering – GPA 3.50/4.00

- **Relevant Coursework:** Data Analytics, Supply Chain Management, Production Planning & Inventory Control, Statistical Quality Control, Operations Research.

Experience

Filling Plant Intern – PT SMART Tbk

Jan 2026 – Feb 2026

Suarabaya, Indonesia — A leading Indonesian agribusiness company operating integrated palm oil refineries and consumer product operations.

- **Designed** and implemented an end-to-end inventory consolidation and monitoring solution using Power Query and Excel VBA, automating multi-file integration, inventory processing, and inter-shift data continuity across production operations.
- **Reduced** manual reconciliation time by 96%, enabled real-time inventory discrepancy detection, and significantly improved stock visibility and recording accuracy through dashboard-based operational monitoring.

Laboratory Assistant – Lab. of System Engineering & Industrial Policy Analysis, UNS

Sept 2025 – Present

Surakarta, Indonesia — An academic laboratory unit within the Industrial Engineering Department focused on system modeling, automation, and decision-support learning.

- **Mentored** and guided 40+ undergraduate students across six laboratory modules covering system modeling, Python programming, and industrial data analytics while facilitating hands-on problem-solving using real industrial case studies.
- **Provided** technical guidance on data processing, machine learning fundamentals, and analytical thinking to strengthen students' decision-support capabilities.

Selected Projects

- **Packaging Inventory Control System — PT SMART Tbk (Jan 2026 – Feb 2026)** — Power Query + Excel VBA system
Designed an automated inventory monitoring solution integrating multi-shift operational data, real-time anomaly detection, and inventory reconciliation, reducing reconciliation time by 96% (52.4 → 2.1 minutes) while achieving 100% IRI detection. [View on LinkedIn](#)
- **HR Attrition Dashboard — Power BI (2026)** — Power BI dashboard analyzing 1,470 employees (IBM HR sample, 35 attributes); built end-to-end Power Query ETL, DAX measures, and a custom **Employee Attrition Risk** score (High/Medium/Low) combining OverTime, JobSatisfaction, distance, and income — turning raw HR data into actionable retention insights. [View on GitHub](#)
- **Global Happiness Dashboard — Tableau (2025)** — Tableau dashboard analyzing global happiness drivers (2015–2019); Developed an interactive Tableau dashboard analyzing global happiness indicators across 156 countries, identifying GDP as the strongest predictor ($R^2 = 0.61$) through statistical correlation and geospatial visualization. Leadership & Organizational Experience

Head of Media Division – INSTING FT UNS 2025

June 2025 – Aug 2025

- Led publication planning and media coordination for a faculty-level engineering competition involving multiple departments.
- Managed branding and communication workflows while coordinating a cross-functional team.

Creative Staff – Visual Design | Peduly Surakarta (Volunteer)

Feb 2025 – July 2025

- Collaborated with cross-functional volunteers to develop digital campaigns, educational content, and communication materials while maintaining consistent organizational branding.

Skills, Certifications, and Language

- **Data Analysis & Visualization:** Excel (Advanced), Power Query, Power BI, Tableau
- **Programming & Database:** SQL (IBM Certified), Python (IBM Certified), Excel VBA
- **Business Analytics & Operations:** Process Improvement, Dashboard Development, Operational Analysis, Inventory Optimization, Root Cause Analysis, Data-driven Decision Making
- **Certifications:** Databases and SQL for Data Science with Python [IBM], Python for Data Science, AI & Development [IBM], TOEIC Listening & Reading [ETS, Apr 2026]
- **Language:** Fluent in Bahasa Indonesia (Native) and English [TOEIC L&R score: 835/990 — Advanced]
