Portfolio: uns.id/AlyssaPortfolio

Third-year Industrial Engineering student at Universitas Sebelas Maret (GPA 3.50/4.00) with strong interests in business analytics, operational improvement, and data-driven decision making. Experienced in developing inventory automation systems, building analytical dashboards, and transforming operational data into actionable insights. Skilled in Excel VBA, Power Query, SQL, Python, Tableau, and Power BI with proven experience supporting process improvement initiatives and mentoring industrial data analysis applications.

Education

Sebelas Maret University, Indonesia

2023 – 2027 (Expected)

Bachelor program of Industrial Engineering – GPA 3.50/4.00

- **Relevant Coursework:** Data Analytics, Supply Chain Management, Production Planning & Inventory Control, Statistical Quality Control, Operations Research.

Experience

Filling Plant Intern – PT SMART Tbk

Jan 2026 – Feb 2026

Suarabaya, Indonesia — A leading Indonesian agribusiness company operating integrated palm oil refineries and consumer product operations.

- **Developed** an end-to-end inventory consolidation and monitoring system using Power Query and Excel VBA, automating multi-file integration, stock processing, and inter-shift continuity tracking.
- **Reduced** manual reconciliation time by **96%** and enabled real-time discrepancy detection through a dashboard-based monitoring layer, improving stock recording accuracy across shifts.

Laboratory Assistant – Lab. of System Engineering & Industrial Policy Analysis, UNS

Sept 2025 – Present

Surakarta, Indonesia — An academic laboratory unit within the Industrial Engineering Department focused on system modeling, automation, and decision-support learning.

- **Mentored** 40+ undergraduate students across 6 lab modules on system modeling, Python programming, and industrial data analysis.
- **Coached** students in applying data processing and machine learning techniques to real industrial cases, supporting hands-on learning outcomes.

Selected Projects

- **Packaging Inventory Control System — PT SMART Tbk (Jan 2026 – Feb 2026)** — Power Query + Excel VBA system automating multi-shift inventory data and real-time anomaly detection — cut reconciliation time 96% (52.4→2.1 min) with 100% IRI detection. [View on LinkedIn](#)
- **HR Attrition Dashboard — Power BI (2026)** — Power BI dashboard analyzing 1,470 employees (IBM HR sample, 35 attributes); built end-to-end Power Query ETL, DAX measures, and a custom **Employee Attrition Risk** score (High/Medium/Low) combining OverTime, JobSatisfaction, distance, and income — turning raw HR data into actionable retention insights. [View on GitHub](#)
- **Global Happiness Dashboard — Tableau (2025)** — Tableau dashboard analyzing global happiness drivers (2015–2019); identified GDP ($R^2 = 0.61$) as the strongest driver via correlation analysis and a world map. [View on Google Drive](#)

Leadership & Organizational Experience

- **Head of Media Division – INSTING FT UNS 2025**
 - Led publication planning and media coordination for a faculty-level engineering competition involving multiple departments.
 - Managed branding and communication workflows while coordinating a cross-functional team.

Skills, Certifications, and Language

- **Data Analysis & Visualization:** Excel (Advanced), Power Query, Power BI, Tableau
- **Programming & Database:** SQL (IBM Certified), Python (IBM Certified), Excel VBA
- **Business & Operations:** Dashboard Development, Statistical Analysis, Process Improvement, Inventory Monitoring, Root Cause Analysis
- **Certifications:** Databases and SQL for Data Science with Python [IBM, Python for Data Science, AI & Development [IBM, TOEIC Listening & Reading [ETS, Apr 2026]
- **Language:** Fluent in Bahasa Indonesia (Native) and English [TOEIC L&R score: 835/990 — Advanced]
